

July 1, 2022

To Whom It May Concern:

Please see highlighted text below for additional guidance.

This letter is to inform you of a change in reporting requirements for Perinatal HIV Rapid Testing Monthly Reports. Beginning in April 2020, hospitals were required to send their Perinatal HIV Rapid Testing Monthly Reports directly to the Illinois Department of Public Health via the DPH.PerinatalHIV@Illinois.gov email address. As of July 1, 2022, reports are to be sent to Mother and Child Alliance (MACA), previously known as Pediatric AIDS Chicago Prevention Initiative (PACPI) at the following email address Reports@MACA-us.org.

Please send all future, and previous reports dating back to April 2020 if not previously submitted, to MACA. **Please do NOT report any further monthly hospital testing information to the Perinatal HIV Reporting System as this system is being retired.** All perinatal HIV testing reports should be sent to Reports@Maca-US.org. Staff from MACA may contact you to confirm data received or to resolve reporting issues with data submitted to IDPH between April 2020 and June 2022.

The updated forms with revised contact information are attached. If you have any questions, please contact Christi S. Jackson, Perinatal Prevention and Surveillance Administrator, via work cell phone at 312-533-7252 or email at christi.jackson@illinois.gov.

Thank you,

Christi Jackson
